Roles & Responsibilities

- Develop interactive e-learning modules using Articulate Storyline/Rise, Adobe Captivate, iSpring, etc.
- Convert PPT/storyboards into engaging digital content.
- Create basic videos, animations, quizzes, and assessments.
- Add interactivities, voiceovers, and subtitles.
- Test and publish courses in SCORM/xAPI format.
- Upload and manage courses on LMS.
- Do basic QA and revisions based on feedback.
- Work with Instructional Designers and SMEs.

Skills Required

- Knowledge of e-learning tools (Storyline/Captivate – anyone).
- Good PowerPoint and MS Office skills.
- Basic graphic/video editing skills (Canva/Photoshop/Premiere – preferred).
- Understanding of LMS and e-learning concepts.
- Good communication and time management.

Qualification

- Graduate in Multimedia / E-learning / Instructional Design / Education / Any related field.

Position: Instructional Designer**Type: Full-Time (Onsite Role)****Key Roles & Responsibilities**

- Design and develop engaging learning content using PowerPoint
- Convert SME inputs into clear, learner-friendly instructional materials
- Create simple storyboards and visual layouts for e-learning/ILT programs
- Ensure content quality, accuracy, and consistency as per learning outcomes
- Collaborate with SMEs, designers, and internal teams for timely delivery
- Maintain basic documentation, productivity logs, and status updates

Required Skills

- Strong English communication and writing skills
- Proficiency in PowerPoint; exposure to e-learning tools is a plus
- Good visualization and storytelling ability
- Basic understanding of instructional design principles
- Attention to detail and willingness to learn

Qualification & Experience

- BCA, MCA and Bachelor's/master's in education, Literature, Journalism, Mass Communication, Instructional Design, or related field
- Experience: 0–2 years

Position: Motion Graphic Designer**Type: Full-Time (Onsite Role)****Roles & Responsibilities: -**

- Create engaging motion graphics, animations, and explainer videos for e-learning content and promotional materials.
- Transform scripts, concepts, and storyboards into visually captivating motion sequences.
- Collaborate with designers, instructional creators, and video editors to bring educational content to life.
- Design and animate graphics, icons, typography, and characters aligned with brand style.
- Ensure smooth visual flow, timing, and transitions for high-quality output.
- Stay updated on design trends, animation techniques, and tools to elevate creative work.

Required Skill Set: -

- bachelor's degree in Animation, Design, Media, or related field.
- 1–2 years of experience in motion graphics or animation (preferably in e-learning or digital media).
- Strong command of tools like Adobe After Effects, Illustrator, Premiere Pro, and Photoshop and Figma.
- Solid understanding of visual storytelling, timing, and rhythm.
- A creative thinker with attention to detail and design aesthetics.
- Excellent collaboration and communication skills.

Position: Inside Sales Associate (B2B)

Type: Full-Time (Onsite Role)

Roles & Responsibilities: -

- Achieve revenue targets (monthly, quarterly, annual).
- Generate and convert leads across EdTech, corporate, and institutional segments.
- Manage end-to-end sales cycle, including client acquisition, presentations, negotiations, and closures.
- Maintain a strong sales pipeline and ensure timely follow-ups.
- Build and manage client relationships to ensure satisfaction and repeat business.
- Identify new market opportunities and support business expansion strategies.
- Analyse competitors and contribute to pricing and service strategies.
- Maintain CRM data and share regular sales reports.
- Support team performance.

Required Skill Set:

- **Experience:** 3–5 years in Sales/Business Development (preferably EdTech or training industry).
- **Qualification:** Bachelor's degree in business, Marketing, or related field (MBA preferred).
- Strong communication, presentation, and negotiation skills.
- Proven track record of achieving sales targets.
- Ability to manage the full sales cycle independently.
- Good understanding of CRM tools and sales reporting.
- Strong interpersonal and relationship-building skills.
- Self-motivated, target-driven, and result-oriented mindset.

Job Title: Academic Counsellor/Admission Counsellor**Type: Full-Time (Onsite Role)****Key Responsibilities: -**

- Counsel students and parents on academic programs, courses, and career pathways.
- Understand student requirements and recommend suitable courses or programs.
- Handle inquiries via calls, emails, WhatsApp, and walk-ins.
- Assist students with the admission and enrolment process.
- Maintain accurate records of student interactions in CRM/ERP systems.
- Follow up with prospective students to ensure conversion and enrolment.
- Coordinate with academic and operations teams for smooth onboarding.
- Provide ongoing academic guidance and address student concerns.
- Meet assigned counselling and enrolment targets.
- Participate in seminars, webinars, and career guidance sessions.

Required Skills & Qualifications: -

- Graduate/Postgraduate in any discipline (Education background preferred), MBA, Psychology, BBA
- Strong communication and interpersonal skills.
- Ability to understand student needs and provide appropriate guidance.
- Basic knowledge of academic programs, career options, and admissions processes.
- Proficiency in MS Office and CRM tools.
- Target-driven with a student-centric approach.

Preferred Skills: -

- Prior experience in academic counselling, admissions, or ed-tech sales.
- Experience handling students and parents.
- Multilingual skills are an advantage.

Job Title: Quality Check (E-Learning Videos)**Type: Full-Time (Onsite Role)****Roles & Responsibilities**

- Review e-learning videos, animations, and modules for visual, audio, and technical quality.
- Ensure content matches approved storyboards, scripts, and instructional guidelines.
- Check on-screen text for spelling, grammar, formatting, and branding consistency.
- Test modules across devices, browsers, and platforms for smooth functionality.
- Identify technical issues, glitches, audio sync errors, and animation problems.
- Coordinate with production and content teams for corrections and timely delivery.
- Maintain QC reports, issue logs, and documentation.
- Ensure proper file management, naming conventions, version control, and backups.
- Verify all deliverables meet company quality standards and SOPs.

Required Skill Set

- Strong attention to detail and quality-focused approach.
- Basic understanding of e-learning, video production, and multimedia workflows.
- Knowledge of video formats, animations, and interactive modules.
- Good communication and coordination skills.
- Ability to identify and report technical and content-related errors.
- Proficiency in MS Excel/Google Sheets for reporting and tracking.
- Strong organizational and time management skills.
